

Overview

Blended learning combines online theory and hands-on classroom training which allows you to learn at your own pace. It is a great way for to save time and money by reducing the hours spent in the classroom, and focus on skills that are specific to high school coaches/trainers.

1. Each participant will complete an online component (4-6 hrs). A certificate of completion is issued to bring to your practical training day (within 30 days)
2. Each participant will complete a practical training day. This day will focus on skills/scenarios specific to high school coaches/trainers. (6 hrs)

Specifications

Panno Medical Inc. provides a third party provider, which is a team of full time Paramedics providing the most advanced and hands on training on the market. These Paramedics are the professionals that are responding to 911 calls each and every day.

Having their professional experience and knowledge brought to the classroom, brings the absolute best First Aid/CPR/AED instructors available. They provide WSIB (regulation 1101) certified training. This is no ordinary Standard First Aid course, this is designed for high school coaches/trainers.
