

COVID-19 INFECTIOUS CONTROL ATTENDANT

PREPARE PREVENT PROTECT

PANNO MEDICAL – INFECTIOUS CONTROL ATTENDANT

PREPARE PREVENT PROTECT

Panno Medical Inc, a company that has been providing event medical services to corporations, events, and film productions in Ontario for over 20 years.

We recognize that during this time, the health and safety of your employees, customers, and community as a whole requires additional measures that are unique to the current circumstances. I have noticed that your stores currently employ security guards at their entrances. While the presence of security guards serves to maintain order and protect employees and customers, health related screening measures are best provided by certified medics with special training in infection control procedures and practices.

To this end, we are pleased to offer you our on-site health & safety measures in order to protect the well being of your employees and customers. Over the last two months, we have worked with our team of medical advisors, including physicians and paramedics, to develop a comprehensive strategy that will help to minimize the risk of exposure to COVID-19 for employees and customers at grocery stores, car dealerships, drug stores, LCBO store to name a few.

Our multi-pronged strategy has been developed based on guidelines by health authorities, including the Public Health Agency of Canada & Public Health Ontario, under the direction of our medical advisors & consists of various components, including:

1. Trained and certified medics who have received training in COVID-19 mitigation/ risk reduction strategies to provide **active, on-site screening** of customers using questions that are based on the latest recommendations from public health agencies.
2. Our medics will conduct temperature checks of your employees and customers using a non-invasive, **NO TOUCH** thermometer.

All of our services, including our medics, are insured.

While many Ontario businesses have shut their doors to reduce the risk of disease transmission, we recognize that you and your employees have taken on the challenge and have been working tirelessly to keep your doors open and provide an essential service to your community. We want to give you the peace of mind that your employees and customers are protected from preventable exposure to infection during their time at your stores.

Please let me know what date/ time works best for you so we can discuss *your* specific needs at your stores.

I look forward to hearing from you.

Sincerely,

PANNO FAMILY
