Standard First Aid with Level "C" CPR and Automated External Defibrillation (AED) Training

This exciting new course offers three valuable courses in one:

- Standard First Aid
- Level "C" CPR
- Public Access Defibrillation (AED)

The most hands on and advanced available on the market. We prefer a hands-on approach, so we have streamlined the standard course to allow for more actual, in-class practice. We want you to feel confident when it comes to saving someone's life in an emergency. Scenario-based training has been proven to be the most successful way to retain information.

Our instructors are all paramedics, and teach from professional, life experience. Their wealth of knowledge from real-life emergencies provides the most realistic training. At the end of each course, the answers to your questions come from our professionals in the classroom, not a textbook.

Topics Include:

- Emergency Scene Management, Shock, Levels of Consciousness
- Heart attack, Stroke and Sudden Cardiac Arrest
- Adult CPR and Choking Sequences
- Public Access Defibrillation
- Wounds, Bleeding and Burns
- Diabetes, Allergic Reactions, Asthma
- Bone and Joint Injury
- Heat and Cold Emergencies

Available Exclusively from Panno Medical:

- *Musculoskeletal Injuries
- *Concussion Recognition
- *Head/Spinal Injuries

Pinewood Toronto Studios 255 Commissioners Street, Suite 112, Toronto, Ontario M4M 0A1
